## Legal technology platforms, including PaaS, explained.

When you're closing in on the end of your second decade doing something, as I am in the legal technology field, you're going to experience many transformations. And I think it's safe to say that, in the field of technology, the pace of change is not dissimilar to the springtime waters of the [Copper River](#) in Alaska when salmon swim into the rushing rapids — a lot of effort to travel a short distance to achieve a critically important goal.
